Date of filing in State Engineer's Office SEP 17 1976

Returned to applicant for correction NOV 15 1976

Corrected application filed DEC 6 1976

Map filed SEP 17 1976 under 30647

The applicant Day Cattle Co., Inc.

_____, of Beowawe,
Street and No. or P.O. Box No. City or Town

Nv 89821, hereby make application for permission to appropriate the public
State and Zip Code No.

waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.) 6/68 Nevada

1. The source of the proposed appropriation is underground
Name of stream, lake or other source.

2. The amount of water applied for is 5.4 cfs second-feet
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet _____ acre-feet

3. The water to be used for irrigation
Irrigation, power, mining, manufacturing, domestic, or other use.

4. If use is for:

(a) Irrigation (state number of acres to be irrigated) 2895 from accompanying map by planimeter

(b) Stockwater (state number and kinds of animals to be watered) _____

(c) Other use (describe fully under "No. 12. Remarks") _____

(d) Power:

(1) Horsepower developed _____

(2) Point of return of water to stream _____

5. The water is to be diverted from its source at the following point: in the NE 1/4 Sec. 28

T. 32N., R. 49E., MDB&M; or a point from which the NE corner of said
Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,
Sec. 28 bears N. 53° 10' E. 1380 ft.
it should be stated.

6. Place of use See attached sheet
Describe by legal subdivision, if on unsurveyed land it should be so stated.

7. Use will begin about March 1 and end about November 1, of each year.
Day and Month Day and Month

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) well, pump, pipelines and ditches

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.

9. Estimated cost of works. \$1000
10. Estimated time required to construct works. 4 years
11. Estimated time required to complete the application to beneficial use. 5 years
12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

This application is supplemental to existing Humboldt River rights.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to other ground water development in the area. A substantial weir or other type of measuring device must be installed and measurements of water use kept. The well shall be equipped with a 2-inch opening for measuring depth to water. If well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times.

No perforations shall be put in the casing until after the well is completed and the log available for study. Perforations shall not start less than 100 feet from the surface unless the log shows a satisfactory confining formation nearer the surface.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 5.4 cubic feet per second, but not to exceed a seasonal duty of 3.0 acre-feet per acre of land irrigated from any and/or all sources.

Actual construction work shall begin on or before December 16, 1977

Proof of commencement of work shall be filed before January 16, 1978

Work must be prosecuted with reasonable diligence and be completed on or before December 16, 1978

Proof of completion of work shall be filed before January 16, 1979

Application of water to beneficial use shall be made on or before December 16, 1981

Proof of the application of water to beneficial use shall be filed on or before January 16, 1982

Map in support of proof of beneficial use shall be filed on or before January 16, 1982

Commencement of work filed JAN 30 1978

Completion of work filed

Proof of beneficial use filed

Cultural map filed

Certificate No. Issued
